

I live in Durango, CO., (La Plata County) and I wish to receive TV stations that originate in Colorado, not New Mexico. I consider it anti-democratic to be unable to receive election information from my home state in a timely (i.e. live) manner. There are many interviews and debates with candidates that I miss because I don't get Denver TV stations. TV news reports that originate in Colorado are even more important to residents of La Plata and Montezuma counties now that the Denver Post limits home delivery to Sundays.

I also don't wish to be informed about news, especially crime reports, from Albuquerque.

I travel to Denver for meetings and I know many others who do as well. We like knowing what the weather will be like in Denver when we get there.

For my work, I administer a private grant that comes from a Colorado Foundation.

I have family and many friends who live in the Denver area. My ties to my family, my work, my elected officials, etc. are all in Colorado. I want to know what is going on in Colorado! Not New Mexico! Please fix this!
